**DECLARATION OF JOEL R. STUDIN UNDER 37 C.F.R. §1.131**

I do hereby declare as follows:

1. THAT I received a Bachelor of Science in General Science and Psychology from the University of Rochester, Rochester, NY, in 1975.
2. THAT I received a Doctor of Medicine from Mount Sinai Hospital, New York, NY, in 1982.
3. THAT I have practiced as a Plastic and Reconstructive Surgeon since 1987.
4. THAT I am the inventor of the above-identified application, that I am familiar with the above-identified application, the Office Actions and applied references rendered to date.
5. THAT Exhibit A is a Formula Worksheet from an independent laboratory I directed to prepare a formulation called Scar Guard, containing a corticosteroid in a film-forming carrier, prior to September 28, 1999. See Exhibit A, from which all dates and extraneous information have been redacted.
6. THAT Exhibit B is a Stability Report Sheet which shows stability testing results of Scar Guard formulation prior to September 28, 1999. See Exhibit B, from which all dates and extraneous information have been redacted.
7. THAT Exhibit C is a Facsimile Cover Page from an independent testing facility I directed to test Scar Guard, showing that Scar Guard was applied

to skin to treat a skin condition and that corticosteroid was transferred into the skin, prior to September 28, 1999. See Exhibit C, from which all dates and extraneous information have been redacted.

8. I further declare that all statements made herein to my knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements so made may jeopardize the validity of the document, or application, or any patent issuing therefrom.

Respectfully submitted,

## MESSAGE:

Christine,

We are able to verify the amount of hydrocortisone in the collodion base as part of the validity and stability testing. While your clinical testing on psoriasis indicated that there was a transfer of the corticosteroid into the skin, your request to assay the actual potency of the delivery of corticosteroids for skin conditions such as psoriasis and eczema would have to be outsourced as they involve either animal or human studies.

Please let me know if you would like us to send this out for quotes.

Thank You,

Zane Last R. Ph.
